### **DETAILED ACTION**

Amendment filed on December 09, 2002 has been entered. Claims 1-3, 5, 7, 10, 15-17, 20 are pending. Applicant's arguments with respect to the rejected claims have been considered and were found persuasive in view of the amendments. Accordingly, the rejections of previous Office Action are withdrawn in view of the new ground(s) of rejection.

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1,3, 5, 15, 16 are rejected under 35 U.S.C. 102(e) as being anticipated by Sjoberg US Patent 6,491,952.

Sjoberg discloses cholesterol lowering baked cakes of 18-20 grams each containing 0.5 g of sitosterol or sitostanol and oat flakes (see example 9, claims 1-9). Accordingly, Sjoberg anticipates the limitations of the instant claims.

***Claim Rejections - 35 USC § 103***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-3, 5, 7, 10, 15-17, 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sjoberg US Patent 6,491,952 in view of James US Patent 6,020,324.

The teachings of Sjoberg are discussed above. Sjoberg also teaches the use of his compositions in forming various food products such as a snack bar such as chocolate bars or other ready to eat food products such as yogurt. (col 2, lines 1-5). Sjoberg fails to explicitly teach products that lower LDL.

James is used to show that B-Glucan containing food supplements are readily used to lower cholesterol including LDL (abstract, col 3, lines 12-35, col 6, lines 65-67; col 7, lines 1-50).

It is *prima facie* obvious to combine two compositions each of which is taught by prior art to be useful for same purpose in order to form third composition that is to be used for very same purpose; idea of combining them flows logically from their having been individually taught in prior art; thus, claims that require no more than mixing together of two conventional spray-dried detergents set forth *prima facie* obvious subject matter. *In re Kerkhoven*, 205 USPQ 1069 (CCPA 1980). Accordingly, it would

Art Unit: 1617

have been obvious to one of ordinary skill in the art at the time of invention to combine the mixture of Sjoberg with those of James and then adjust the ratios of cholesterol lowering agents through routine experimentation to produce a food product of choice that provides LDL lowering effects, because as reasoned in *Kerkhoven* combining such ingredients flows logically from the teachings of Sjoberg and James.

### ***Conclusion***

No claims are allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
